Do you receive financial aid? \_\_\_\_\_

If yes, please be aware that prize awards must be considered financial aid and winning a prize may change your current financial aid package.

Federal financial aid regulations require that all awards received by a student cannot exceed their financial aid need as determined by a Congressional formula. It is possible, therefore, that the cash award for a Prize could reduce some component of a needy student's package of financial aid awards. In these cases, the Financial Aid Office attempts first to reduce loan or work aid; fellowships, grants or scholarships are only reduced as a last resort.
